

MAKE THE SWITCH TO METAL TODAY

SAVE MONEY

- HUGE COST SAVINGS OVER MASONRY

SAVE TIME

- NO PERMIT REQUIRED
- NO INSPECTIONS
- NO SPOILS REMOVAL
- NO CONTINUOUS FOOTING

ENVIRONMENT FRIENDLY

- FIREPROOF-ASTM E2768 CLASS A RATING-"O" FLAME SPREAD
- 100% RECYCLABLE

CUSTOMIZE TO FIT YOUR NEEDS

- CAN BE COATED TO MATCH ANY AESTHETIC
- UNLIMITED STYLES — CAN BE FABRICATED TO ANY STYLE. MAKE IT BLEND IN OR STAND OUT

SAVE ON MAINTENANCE

- HOT DIPPED GALVANIZED OPTION OFFERS 60 YEAR LIFESPAN
- PPG MARINE GRADE PRIMER
- SHERWIN WILLIAM PRO INDUSTRIAL TOP COAT
- ZINACLUM OPTION
- ALUMINUM OPTIONS
- EASILY REPAIRED

MAKE THE SWITCH TO METAL TODAY

WHY THE NEED FOR METAL SYSTEMS?

Based on the new fire standards, the Fire Hazard Severity Zone Maps released by California in 2022 (www.osfm.fire.ca.gov/fire-hazard-severity-zones-maps-2022), we realized the need for fireproof products. Greenfield Metal steel products meet the American Society for Testing and Materials (ASTM) Class A Fire Rating Zero Flame Spread. Neither vinyl nor wood can meet these stringent standards.

Our galvanized steel and aluminum products are an approved alternative to masonry and courtyard walls, trash enclosures and trail fencing. Several cities throughout California are no longer accepting wood or vinyl fencing due to a lack of strength, fire zoning, lifespan, durability, and maintenance. Understanding the industry, we developed products that meet these stricter requirements. Our trail fence can be purchased hot dipped with a 60-year lifespan with no coatings. Our privacy wall is offered with Zinalume steel coating with a 25-year warranty. Our products are 100% recyclable and offer a 40% cost reduction compared to masonry with a faster installation time frame.

Our photos are often compared to vinyl fencing. Don't be fooled! The website photos are steel and aluminum products, which have far more applications than any type of fence material. Our products can be painted to match any aesthetic. If you do not find the style or size you want, we are able to fabricate your desired design.

Specifications are available.

METAL SYSTEMS: LEAVING MASONRY BEHIND COST EFFICIENT AND QUICK: THE ONLY ALTERNATIVE TO MASONRY

METAL SYSTEM ADVANTAGES

- STRONGER BY DESIGN
- NO PERMITS
- NO INSPECTIONS
- NO CONTINUOUS FOOTING
- NO SPOILS REMOVAL
- 8' TO 12' HIGH OPTIONS WITHOUT EXCESSIVE COSTS
- CUSTOM FABRICATION-BEAUTIFUL, UNIFORM FRONT RETURNS WITH MATCHING GATE
- CUSTOM FABRICATION = UNLIMITED STYLES
- RAPID INSTALLATION

MASONRY WALL DRAWBACKS

- LITTLE TO NO STRENGTH ON FRONT RETURNS
- PERMITS REQUIRED = INCREASED COSTS
- SEVERAL INSPECTIONS = DELAYED PRODUCTION DAYS & LOSS OF REVENUE
- CONTINUOUS FOOTING REQUIRED = DELAYED PRODUCTION DAYS
- SPOILS REMOVAL REQUIRED = HUGE COST
- INFLATED COST FOR INCREASED HEIGHT
- MASONRY DOES NOT HAVE ANY CAPABILITY FOR A UNIFORM FRONT RETURN
- MASONRY HAS VERY LIMITED STYLES OR OPTIONS
- SLOW INSTALLATION TIME FRAME = LOSS OF REVENUE
