STEEL RAILS**

Metal Systems | 2 Rail 1.5X5.5 Rails

100%
RECYCLABLE STEEL
ECO FRIENDLY

ENVIRONMENTALLY FRIENDLY - NO FUTURE WASTE

WHY THE NEED FOR METAL SYSTEMS?

Based on the new fire standards, the Fire Hazard Severity Zone Maps released by California in 2022 (www.osfm.fire.ca.gov/fire-hazard-severity-zones-maps-2022), we realized the need for fireproof products. Greenfield Metal steel products meet the American Society for Testing and Materials (ASTM) Class A Fire Rating Zero Flame Spread. Neither vinyl nor wood can meet these stringent standards.

Understanding the industry, we developed products that meet these stricter requirements. Our trail fence can be purchased hot dipped with a 50-80 year lifespan with no coatings. Our products can be painted to match any aesthetic. If you do not find the style or size you want, we are able to fabricate your desired design.

Specifications are available. Please contact our office today.

METAL SYSTEM TRAIL FENCE ADVANTAGE

- STRONGER
- LONGER LIFE SPAN
- CLASS "A" FIRE RATED
- NO TOXIC CHEMICALS
- NO POST CRACKING
- NO BROKEN POST CAPS
- NO BROKEN POST OR RAILS
- 100% RECYCLABLE

LODGE POLE DISADVANTAGE

- SHORT LIFE SPAN
- FILLED WITH TOXIC CHEMICALS
- POSTS CRACK AND ROT
- THE RAILS WILL WARP AND BREAK
- CANNOT BE RECYCLED

PVC VINYL DISADVANTAGE

- VERY LIGHT WEIGHT
- 10-15 YEAR LIFE SPAN
- CLASS "C" FIRE RATED
- POSTS CRACK EASILY
- POST CAPS BREAK EASILY
- RAILS BREAK EASILY
- CANNOT BE RECYCLED
